## Miscellaneous

Practice weight training 4 times a week,  
Passionate about movies and the Marvel universe,  
Visited over 15 countries across different regions of the world

# Zayim MOHMAND

## Computer science student

## About Me

Currently in my second year of Computer Science at the University of Annecy, specializing in data administration, management, and operations. My key strengths are a rigorous analytical approach and a commitment to detailed execution. As a requirement of my studies, I will be undertaking an internship from April to June 2026. I am specifically seeking the position outlined in this advertisement to further develop my practical skills and apply the specialized knowledge I have gained thus far.

## Experience

### University project web development and database management

**Savoie Mont-Blanc University**

**October 2025 - Ongoing**

- Design and development of a web application tailored to the needs of a fictitious client FIFA, completed as part of a 6-person team
- Utilized the Laravel framework to create user management, order processing, and transaction functionalities
- Administered and managed the database to ensure secure and efficient data storage

### University project development of a Fictional Database

**Savoie Mont-Blanc University**

**March- April 2025**

- Creation of a database for managing loans in a laboratory
- Designed a conceptual data model (CDM)
- Developed a logical data model (LDM) and SQL scripts to meet client requirements
- Inserted sample data to test the database functionality

## Education

**Savoie Mont-Blanc University**

**2024 - Ongoing**

BUT Informatique (Technical Bachelor's Degree in computer science)

**Glières High School**

**2021 - 2024**

French Baccalaureate SSI (High School diploma specialized in Mathematic and Earth science)
